1. Camera pans out to a student struggling during exam period over not understanding the lecture slides shared by the lecturers and missed a substantial amount of lectures due to illness.
2. While he is venting to his friend, his friend recommends the website: Notebuddy, and the camera angle switches to the screen recording of the app showing the home page
3. A description of the isDark feature where the friend jokingly says this is too bright and the dark feature is turned on
4. The friend walks through the app by explaining the key features (home page and a brief description of the website → register → login)
5. After login → dashboard → modules → search notes (use cases of searching based on title and the author email) → viewing notes (previewing, downloading, rating, and commenting) → Leaderboard (if you want to be in the leaderboard and take part of this friendly competition) →
